

BACKGROUND SCREEN
EK - 01.1.1, EK - 01.2.1,
EK - SU

Background screen is additional element of PHG and SU traffic lights equipment. When traffic light position is unprofitable because of sunbeams it is particular recommended. Enlarge contrast surface makes an easier to recognize signal emitted by traffic light.

Technical data:

EK - 01.1.1 (rectangular background screen for traffic light PHG ϕ 300)

dimensions: 1400 x 850 mm

construction: two-partial connect by angle bracket,

material: sheet aluminium 1,5 mm,

Background is painted by black mat powder paint, and white strip around (is a tape)

EK - 01.2.1 (rectangular background screen for traffic light PHG ϕ 200)

dimensions: 1000 x 520 mm

construction: two-partial connect by angle bracket,

material: sheet aluminium 1,5 mm,

Background is painted by black mat powder paint , and white strip around (is a tape)

EK - SU
