

CABLE TERMINAL PHA-4

Cable terminal application is assembling traffic light PHG and SU (diameter 200,300) to masts \varnothing 114 using brackets PHB - 41103, PHB - 411201. It makes a cable terminal with 1 strip and 7 terminals (PHA - 4102), or 4 strips with 12 terminals (PHA - 4101). It allows to separate typical signalling cables YKSY 13 x 1,5 mm

Technical data:

Housing is executed from aluminum cast in octagon form. This structure allowed in all possible combinations on crossroad.

Basic version

Type	Max. number of assembling consoles	Number of terminal strip
PHA - 4101	4	4 strips 12 terminals
PHA - 4102	3	1 strips 7 terminals

	PHA - 4101 PHA - 4102
dimension (octagon)	155 x 480 mm
protection degree	IP 44
weight	7 kg
