

BASIC SIGNALLIG DEVICE

Ø100 SP100

Compliance with:

PN-EN 12352**L2H**

- L2H; C2

Characteristic:

Basic signaling device SP100 has many applications (draw no 1). Using high LED technology makes low power consumption and longer life of light source. It eliminates phantom effect. In depend on type the device can work as a autonomous element or external command by master unit. Device is adjusted to be powered with solar panel.

Technical data:

Light source:	LED
Light source life:	≥ 10 years
Luminous intensity:	500 cd
Emitting signal colour:	yellow, red, green
Impulse frequency:	50±3 / min (or external command)
Power consumption @ 12V:	
day:	315 mA
<u>Overall dimensions:</u>	
diameter:	100 mm
thickness:	45 mm
weight:	0,14 kg

Types:

SP100-011	yellow basic signalling device, external command, supply 12V
SP100-021	red basic signalling device, external command, supply 12V
SP100-031	green basic signalling device, external command, supply 12V
SP100-013	yellow double synchro flashing basic signalling devices, supply 12V
SP100-014	yellow triple synchro flashing basic signalling devices, supply 12V
SP100-015	yellow quadruple synchro flashing basic signalling devices, supply 12V
